Category description:

This Award will recognise a midwifery educator or a team of educators who are able to demonstrate innovation, dynamism, commitment, and enthusiasm for education to benefit student midwives, midwives or MSWs. This may be demonstrated through the development of teaching and learning initiatives which have enhanced the student, MSW or midwife learning experience, fostered multidisciplinary team working and/or promoted continuing professional development.

Projects could promote education in academic or clinical settings as well as innovations in approaches to pre- and post- registration education and learning that increase students/MSWs/midwives' capability and confidence. Projects may also prepare and equip students/MSWs/midwives to provide the highest quality care and advance the art and science of midwifery knowledge.

The judges are looking for:
